

AN/ALR SERIES

Radar Warning Receiver

USD, founded in 1962, has matched its production capability with a successful repair/overhaul and upgrade business. We are one of a limited-number of organizations designated as a U.S. Government Repair Facility. Through the reverse engineering and manufacturing process, USD has been able to repair/overhaul, modify or supply many otherwise obsolete products, assemblies or subassemblies. Our team of experienced problem solvers can also meet the challenges of your systems obsolescence concerns in the event of Diminishing Manufacturing Sources (DMS).

Please note that the capabilities shown below are not an all inclusive list. Direct all inquires via e-mail to sales@usdynamicscorp.com

Repair, Overhaul or Factory New

USD is always adding new systems for
Repair, Overhaul and New Builds.

Please contact factory for additional systems supported.
